

My gift is made in honor of Mr. Win Apel to support the Brain Tumor Research of Dr. Glenn J. Lesser.

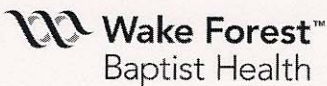

A Mission to Care. A Mission to Cure.

*Thank you
for your generosity.*

The Brain Tumor Center of Excellence (BTCOE) was established to develop the most innovative academic program at the Comprehensive Cancer Center of Wake Forest Baptist Health.

The focus of the BTCOE is on improving patient care through research, since many brain tumors represent unmet needs in medicine. This goal is being realized in a highly collaborative academic environment that brings together basic scientists with clinical researchers and patient care providers.

For information about contributing to Wake Forest Baptist Health, contact:

Office of Development and Alumni Affairs
Medical Center Boulevard
Winston-Salem, NC 27157-1021
